Ombudsman Services

Ofgem define a micro-business customer as meeting the below criteria:

A non-domestic consumer is defined as a microbusiness if they: employ fewer than 10 employees (or their full time equivalent) and has an annual turnover or balance sheet no greater than €2 million; or. uses no more than 100,000 kWh of electricity per year; or. uses no more than 293,000 kWh of gas per year

If we are unable to address your complaint, you have the right to raise a dispute with Ombudsman Services as the designated Alternative Dispute Resolution provider. This may be in the following situations where the complaint:

- a) reached a "deadlock" position, where the parties involved aren't able to agree a resolution and have reached the end of the complaint process; or
- b) been unresolved for more than eight weeks.

Ombudsman Services provide an independent and impartial Alternative Dispute Resolution service that is free for our customers to use.

We have to accept dispute resolutions proposed by Ombudsman Services, but our customers can choose to reject them.
